Spikes & Thompson sold 100 Illinois steers for N. Morris, 60 cwt., at 15c. 16c.

MILCH COWS.—There continues to be a good demand for fresh cows, unless they are poor. Common cows are not wanted, but fine, handsome cows, in good flesh and good at milking, will bring 10c. per lb. per day. The best cows are worth \$90 to \$100 each, and if a little extra will sell at \$120 to \$130, each.

It is absolutely essential that the cow be a fresh one, and, as a guarantee of such fact, the young calf should accompany the mother, though not necessary, as the young calves are sold as low as \$5 each—MILK COWS.

FEAR CALVES.—Veal presents a very even course, though they now go quicker and bring a trifle more on account of the smaller number. While the price is still high, there is a good demand for veal at 15c. 16c. live weight.

From this they run down to 10c., which is the lowest price at which they are weighed. Some grain calves are sold each week at \$8 to \$10 each, and a few extra at 8c.

Receipts this week..... 26,028.

QUOTATIONS.—The following reports of sales of sheep and lambs, by several of the sheep-brokers, who sell on commission, will give the average of prices per head this week. They are quoted per pound, live weight, for Sheep, \$1 1/2; Lambs, \$1 1/2.

These are nearly unchanged in price with the largest receipts since October of last year. There is a good demand for fat stock, both Sheep and Lambs, and the latter are common—when they are very poor.

Good sheep sell quickly at 7c. 8c. per lb. those in this class are hard to work off at less than 8c.—some by the head for less than 7c. Fair Lambs will bring 8c. in pens, without regard to quality, and when the pens are full, the lambs are sold in lots, and the remainder will bring 8c. Some are sold by the head at 8c. 9c. 10c. each, and so up to 6c. for fat lamb. There is little difference in the price by the head, of sheep and lambs, save that some lambs, however well brought up, will bring a trifle more.

Sheep are raised, however, by the head, and are guaranteed to be fat, when they are weighed.

They sell, however, at 8c. 9c. 10c. each, and a few extra at 8c.

In the intention to place the securities of this Company upon the Books of the Brokers Board, the same are ready for business.
